Summary

Graduating from Banking Academy, but I'm very interested in Front-end Web when learning about that. After studying at FPT APTECH center and F8 (<https://fullstack.edu.vn/>), I learned some skills in that area.

I'm seeking to have an opportunity that matches my skills to improve my realistic knowledge and experience of Front-end Web and contribute to the development of your company.

Career Objective

Short-term Have a stable job, become an excellent employee, accumulate more experience about Front-end Web.

Long-term Become a fullstack developer and then a project manager.
